

Interacting with Children

Be polite and kind to your greyhound.

Use common sense and be considerate ...

Learn to recognise signs of anxiety or fear.

Build a bond through appropriate activities such as:

Throwing a ball.

Play hide and seek. Reward recall with treats, pats or praise.

Going for a walk.

Training tricks such as "down" or "stay"

ALWAYS REMEMBER:

SUPERVISE ALL INTERACTIONS

Accidents can occur in a split second.

Train your greyhound to associate kids with positive experiences. This may help your greyhound be less reactive if a child interacts inappropriately.
